

BCPSEA Proposal E. 24
Date: April 1, 2019 Time: 2:53pm

School Calendar

Concept Proposal:

Within Mandate 2019, to improve flexibility of the school calendar we propose a standard calendar of up to 200 work days per year of which no more than 190 days are instructional days.

Notes:

1. Where a school or district has an alternate calendar e.g. a 4 day week or a 9 day fortnight, the 200 and 190 days will be the pro-rated equivalent.
2. Agreed to collective agreement language would be included as a new article in Section D as provincial standard and replaces any "bookend" or "school year" local language.
3. In exchange, we will be prepared to consider changes to the existing local salary grid structures such as to amend the starting placement of contracted teachers on the salary grids.
